Sell Chicago Real Estate.

Chicago real estate almost sells itself, and does its own talking. A syndicate of wealthy men own Chicago Heights, the manufacturing center of the busiest city in the world. They want one first class real estate man (only) to rep; esent them in this town and vicinity. Handle something you can turn easily. Location, price, terms—are all attractive and right. Many factories are built; building contracted for—because they get Chicago freight rates everywhere; cheap fuel; cheap building material; low taxes. The property is selling rapidly now, and heavy, judicious advertising is going to stimulate sales. A live, progressive man, with a following, can learn of a business opening of a very profitable nature by writing today to the Chicago Heights Land Association, Chamber of Commerce, Chicago. Ask for their booklet, "Chicago's Beaten Path." Best references required.
